

# Universal board covering

## Universal board covering UPO

Standard length of profile  
**1 m**

The covering UPO is the improved form for covering the space between rows of built-in elements in distribution boards. The built-in elements are installed on the mounting rails with width of 35 mm which shall be mounted in the distance of 125 mm.

**Description** - UPO covering consists of terminal plates that should be fixed on mounting rails, and flat and corner profiles, which are click-on mounted on the terminal plates. The space between rows of apparatuses is covered by a flat profile. Upper and lower rows of devices should be covered by corner profile.

### Universal board covering UPO

| type           | code No.  | weight<br>[g] | packaging<br>[pcs] |
|----------------|-----------|---------------|--------------------|
| Terminal plate | 001214011 | 50            | 18                 |
| Flat profile   | 001214012 | 15            | 322                |
| Corner profile | 001214013 | 10            | 306                |
